The TEBCO Augers and Drilling equipment are a result of 35 Years' experience in the drilling industry. Our experienced staff understand the frustrations of operators with existing equipment and are determined to use our knowledge to develop high quality products to meet the true needs of this industry.

Our Products range from those to suit 1 Tonne machines to 60 Tonne machines.

Quality products, Competitive pricing, experienced staff and perfect service are a few of the reasons many operators turn to TEBCO.

TEBCO Range of products includes:

**Unique augers for the House pier drilling sector** - TEBCO Augers have a unique drilling head which leaves a very clean hole, thus eliminating the need for a cleaning bucket.

**Specialized Rock Augers** - TEBCO Rock augers are designed to vibrate when in use enabling extremely efficient rock drilling. Left and Right hand Flight augers are available.

**Coring Barrels** - TEBCO re core barrels are for use in hard abrasive conditions and Rubbish tip applications. Teeth arrangements are unique and maximize life of teeth as well as coring ability.

**CFA Augers** - Unique connection methods as well as years of experience have allowed us to create an easy to assemble and efficient cutting Grout auger.

**Rotary Joints for grout applications** - Tried and tested, build to order.

**Excavator and Back Hoe Buckets** - Tapered design minimizes friction and therefore helps you get the most out of your machine. Custom design also available.

**Wear Parts**

**Tungsten Carbide Tools and Cutting Teeth** - Long lasting, unique design and competitive pricing.

**High Quality Auger & Bucket repair + hard facing service** - Tungsten Chip and Tungsten Wire Welding - better abrasion resistance than traditional hard facing methods, ensuring longer life of your equipment.

Get a competitive edge by calling our down to earth staff on (02) 4677 2649
